  • The vendor shall provide timely and accurate technical advice and sales support. The vendor shall respond to such requests within one (1) working day after receipt of the request.

– Disclosures
  • Respondent affirms that he/she has not given, offered to give, nor intends to give at any time hereafter any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor or service to a public servant in connection with this contract.
  • The respondent affirms that, to the best of his/her knowledge, the offer has been arrived at independently, and is submitted without collusion with anyone to obtain information or gain any favoritism that would in any way limit competition or give an unfair advantage over other vendors in the award of this contract.

– Renewal of Contract
  • Unless otherwise stated, all contracts are for a period of three (3) years with an option to renew for up to two (2) additional one-year terms or any combination of time equally not more than 2 years if agreed to by Region 14 ESC and the vendor.

– Funding Out Clause
  • Any/all contracts exceeding one (1) year shall include a standard “funding out” clause. A contract for the acquisition, including lease, of real or personal property is a commitment of the entity’s current revenue only, provided the contract contains either or both of the following provisions:
    • Retains to the entity the continuing right to terminate the contract at the expiration of each budget period during the term of the contract and is conditioned on a best efforts attempt by the entity to obtain appropriate funds for payment of the contract.

– Shipments (if applicable)
  • The awarded vendor shall ship ordered products within seven (7) working days for goods available and within four (4) to six (6) weeks for specialty items after the receipt of the order unless modified. If a product cannot be shipped within that time, the awarded vendor shall notify the entity placing the order as to why the product has not shipped and shall provide an estimated shipping date. At this point the participating entity may cancel the order if estimated shipping time is not acceptable.

– Tax Exempt Status
  • Since this is a national contract, knowing the tax laws in each state is the sole responsibility of the vendor.

– Payments
  • The entity using the contract will make payments directly to the awarded vendor or their affiliates (distributors/business partners/resellers) as long as written request and approval by NCPA is provided to the awarded vendor.
- Adding authorized distributors/dealers
  - Awarded vendors may submit a list of distributors/partners/resellers to sell under their contract throughout the life of the contract. Vendor must receive written approval from NCPA before such distributors/partners/resellers considered authorized.
  - Purchase orders and payment can only be made to awarded vendor or distributors/business partners/resellers previously approved by NCPA.
  - Pricing provided to members by added distributors or dealers must also be less than or equal to the pricing offered by the awarded contract holder.
  - All distributors/partners/resellers are required to abide by the Terms and Conditions of the vendor’s agreement with NCPA.

- Pricing
  - All pricing submitted shall include the administrative fee to be remitted to NCPA by the awarded vendor. It is the awarded vendor’s responsibility to keep all pricing up to date and on file with NCPA.
  - All deliveries shall be freight prepaid, F.O.B. destination and shall be included in all pricing offered unless otherwise clearly stated in writing.

- Warranty
  - Proposals should address each of the following:
    § Applicable warranty and/or guarantees of equipment and installations including any conditions and response time for repair and/or replacement of any components during the warranty period.
    § Availability of replacement parts
    § Life expectancy of equipment under normal use
    § Detailed information as to proposed return policy on all equipment

- Indemnity
  - The awarded vendor shall protect, indemnify, and hold harmless Region 14 ESC and its participants, administrators, employees and agents against all claims, damages, losses and expenses arising out of or resulting from the actions of the vendor, vendor employees or vendor subcontractors in the preparation of the solicitation and the later execution of the contract.

- Franchise Tax
  - The respondent hereby certifies that he/she is not currently delinquent in the payment of any franchise taxes.

- Supplemental Agreements
  - The entity participating in this contract and awarded vendor may enter into a separate supplemental agreement to further define the level of service requirements over and above the minimum defined in this contract i.e. invoice requirements, ordering requirements, specialized delivery, etc. Any supplemental agreement developed as a result of this contract is exclusively between the participating entity and awarded vendor.
TAB 1 – MASTER AGREEMENT GENERAL TERMS AND CONDITIONS

– Certificates of Insurance
  • Certificates of insurance shall be delivered to the Public Agency prior to commencement of work. The insurance company shall be licensed in the applicable state in which work is being conducted. The awarded vendor shall give the participating entity a minimum of ten (10) days notice prior to any modifications or cancellation of policies. The awarded vendor shall require all subcontractors performing any work to maintain coverage as specified.

– Legal Obligations
  • It is the Respondent’s responsibility to be aware of and comply with all local, state, and federal laws governing the sale of products/services identified in this RFP and any awarded contract and shall comply with all while fulfilling the RFP. Applicable laws and regulation must be followed even if not specifically identified herein.

– Protest
  • A protest of an award or proposed award must be filed in writing within ten (10) days from the date of the official award notification and must be received by 5:00 pm CST. Protests shall be filed with Region 14 ESC and shall include the following:
    § Name, address and telephone number of protester
    § Original signature of protester or its representative
    § Identification of the solicitation by RFP number
    § Detailed statement of legal and factual grounds including copies of relevant documents and the form of relief requested
  • Any protest review and action shall be considered final with no further formalities being considered.

– Force Majeure
  • If by reason of Force Majeure, either party hereto shall be rendered unable wholly or in part to carry out its obligations under this Agreement then such party shall give notice and full particulars of Force Majeure in writing to the other party within a reasonable time after occurrence of the event or cause relied upon, and the obligation of the party giving such notice, so far as it is affected by such Force Majeure, shall be suspended during the continuance of the inability then claimed, except as hereinafter provided, but for no longer period, and such party shall endeavor to remove or overcome such inability with all reasonable dispatch.
• The term Force Majeure as employed herein, shall mean acts of God, strikes, lockouts, or other industrial disturbances, act of public enemy, orders of any kind of government of the United States or any civil or military authority; insurrections; riots; epidemics; landslides; lighting; earthquake; fires; hurricanes; storms; floods; washouts; droughts; arrests; restraint of government and people; civil disturbances; explosions, breakage or accidents to machinery, pipelines or canals, or other causes not reasonably within the control of the party claiming such inability. It is understood and agreed that the settlement of strikes and lockouts shall be entirely within the discretion of the party having the difficulty, and that the above requirement that any Force Majeure shall be remedied with all reasonable dispatch shall not require the settlement of strikes and lockouts by acceding to the demands of the opposing party or parties when such settlement is unfavorable in the judgment of the party having the difficulty.

− Prevailing Wage

• It shall be the responsibility of the Vendor to comply, when applicable, with the prevailing wage legislation in effect in the jurisdiction of the purchaser. It shall further be the responsibility of the Vendor to monitor the prevailing wage rates as established by the appropriate department of labor for any increase in rates during the term of this contract and adjust wage rates accordingly.

− Miscellaneous

• Either party may cancel this contract in whole or in part by providing written notice. The cancellation will take effect 30 business days after the other party receives the notice of cancellation. After the 30th business day all work will cease following completion of final purchase order.

− Open Records Policy

• Because Region 14 ESC is a governmental entity, responses submitted are subject to release as public information after contracts are executed. If a vendor believes that its response, or parts of its response, may be exempted from disclosure, the vendor must specify page-by-page and line-by-line the parts of the response, which it believes, are exempt. In addition, the respondent must specify which exception(s) are applicable and provide detailed reasons to substantiate the exception(s).

• The determination of whether information is confidential and not subject to disclosure is the duty of the Office of Attorney General (OAG). Region 14 ESC must provide the OAG sufficient information to render an opinion and therefore, vague and general claims to confidentiality by the respondent are not acceptable. Region 14 ESC must comply with the opinions of the OAG. Region14 ESC assumes no responsibility for asserting legal arguments on behalf of any vendor. Respondent are advised to consult with their legal counsel concerning disclosure issues resulting from this procurement process and to take precautions to safeguard trade secrets and other proprietary information.

WHAT DIFFERENTIATES YOUR COMPANY FROM COMPETITORS?
Matrix Fitness has grown to be one of the leading fitness equipment brands in the global commercial segment through new product development, continuous innovation, strategic partnerships, distribution, superior customer tech support and forward-thinking business solutions for our customers. The following provides a brief summary of how these initiatives have differentiated the Matrix Fitness offering from its competitors.

Product Development
A steady flow of new products over the last 10 years has resulted in a portfolio of over 500 products, giving our customers an industry-leading variety of choices. In Q1 2018, we launched our new connected strength training products and our S-Force Performance Trainer. Both products provide performance and functionality that our competitors cannot. Our Ascent Trainer elliptical platform sets us apart from other companies with its variable stride and its patent-protected design. Several other existing products across our diverse portfolio provide Matrix- exclusive design features, including: our Rower features a unique magnetic resistance system; our Krankcycle has patented independent-rotation arms; our ClimbMill employs a superior modular drive system instead of a traditional AC drive system with transmission; MX4, our original multi-modality small group training program, is powered exclusively by Matrix products; and our exclusive Sprint 8 HIIT program.

Innovation
Our innovation process is based on stakeholder data-gathering. Our stakeholders include owners and operators, trainers, service technicians and end users. Our process has provided us with profound insights that have improved design for serviceability and lowered total cost of ownership while helping us develop training programs that drive incremental revenue for fitness facilities and healthy results for end users.

Strategic Partnerships
Our unique strategic partnerships are another aspect of our business that differentiates us from our competition. Through our strategic partnerships, we have developed programs such as Sprint 8 HIIT and products such as the Krankcycle and our S-Force Performance Trainer that are exclusive to Johnson Health Tech and Matrix Fitness.

Distribution
Our regional distribution centers are strategically located based on proximity and population density, allowing our delivery and installation teams to be more efficient than those of our competition.

Customer Tech Support
Johnson Health Tech North America and Matrix Fitness have approximately 17 direct service techs and over 300 certified independent service techs. This is supported by 22 inside service support representatives located at our headquarters in Cottage Grove, WI.
**TAB 4 – VENDOR PROFILE**

**Business Solutions**
Our Matrix-exclusive group training concept, MX4, combines multi-modality training with original fitness programming developed in-house by our master trainer network. We also provide MX4-dedicated resource and a business development model for our customers. Matrix currently has more than 325 MX4-certified trainers in the United States. Matrix Connected Solutions provides technology-based business solutions that include Asset Management, Workout Tracking Network, Personal Trainer Portal and additional customization capabilities that differentiate us in a way our competition can’t match.

**DESCRIBE HOW YOUR COMPANY WILL MARKET THIS CONTRACT IF AWARDED.**
If awarded, Matrix Fitness will obtain prior approval from NCPA on any communication pertaining to the contract. This includes the use of NCPA name and logo. It is the intention of Matrix Fitness to create a communication plan to utilize the NCPA logo and reference the contact within our already-existing marketing elements. This may include adverts, presentations, email campaigns and social media.

**DESCRIBE HOW YOU INTEND TO INTRODUCE NCPA TO YOUR COMPANY.**
Matrix would leverage multiple departments working together internally to ensure all parties are aware of the Master Agreement General Terms and Conditions. Additionally, the sales account team will communicate the details of the account with the US sales team and applicable dealer network as outlined in the contacts section.

**DESCRIBE YOUR FIRM’S CAPABILITIES AND FUNCTIONALITY OF YOUR ON-LINE CATALOG / ORDERING WEBSITE.**
The Matrix website is comprehensive and allows visitors to explore all of the products available. Since e-commerce practices are not standard in the commercial fitness equipment industry, customers are connected to the appropriate sales rep for their area and or market to discuss the most appropriate solution in a consultative way.

DESCRIBE YOUR COMPANY’S CUSTOMER SERVICE DEPARTMENT
Customer service is one of our strengths and something that sets us apart from the rest of the industry. When a facility chooses Matrix, they can count on a 90% first-time fix rate, a prompt service response window and the ability to provide diagnostic services remotely or onsite. We ensure high-quality customer service in the following ways:

**Careful Recruiting**
Matrix takes great care in selecting the right individuals for our service network. We look for individuals who have exceptional analytical skills, strong cognitive abilities and professional mannerisms.

**Extensive Training**
Service provider technicians undergo 32 hours of live training and four hours of web-based training in order to achieve certification in servicing Matrix equipment. Technicians must also complete 16 hours of training every two years in order to maintain their certification.

**Online Remedy System**
Matrix has built a proprietary technical information repository referred to as our Online Remedy System. The Online Remedy System contains Matrix service work orders, product specifications, service manuals, exploded parts diagrams, service bulletins and much more. This system is accessible to our customer service agents, service providers and customers.

**Customer Early Warning System**
Matrix has built a proprietary in-house tool called the Customer Early Warning System to analyze repair history across customer sites and equipment. Using a variety of key performance indicators, this system generates monthly reports which are reviewed and acted upon by our customer service leads and supervisors. This enables Matrix to take a proactive approach in spotting potential maintenance trends, helping us take the appropriate measures to prevent minor issues from becoming larger problems for our customers.

**Asset Management System**
Our exceptional Asset Management system can provide machine usage statistics, machine error reporting and offline asset tracking. Asset Management sends information about machine errors or offline units to our customer service department for analysis and troubleshooting.

On-site Preventative Maintenance and Repairs
Routine preventative maintenance will reduce your equipment downtime and prevent major repairs before they happen. As your total solution partner, we’ll provide a smart, consistent regimen designed to keep all your Matrix equipment looking and performing like new while extending equipment life and protecting your investment.

We offer three separate ways to report an issue with a Matrix product and to request service:

1. Calling into our tech support team line at 866-693-4863 and following the prompts and instructions for Commercial Support. The hours of operation for the customer service center is 7am-7pm Monday–Thursday and Friday 7am–5pm.

2. Texting the issue in to our support team at 608-208-6926. The text-to-chat feature enables anyone to have a live chat with our CTS department and can directly assist with a problem or set up a dispatch to the local service technician.

3. Email the issue to the relevant email address below including as much information as possible including any serial numbers of the affected unit.

GREEN INITIATIVES
We believe in continuous improvement at Johnson Health Tech/Matrix Fitness, so we’re always striving to be better, smarter and more responsible when it comes to environmental sustainability. Our North American global product marketing headquarters instituted a holistic energy saving program and reduced electricity consumption by 20% per year without increasing our natural gas use. In conjunction with daylighting features built into our facility, switching from fluorescent bulbs to cooler LEDs conserved approximately 6,658 kilowatt hours of power annually. Our facility’s smart storm-water management design reduces runoff pollution in local lakes and rivers while providing habitats for native species, and in-facility water-saving measures reduced our total consumption by approximately 1,111,000 gallons per year and our per employee consumption by approximately 3,904 gallons per year. We recycle 100% of our Styrofoam and scrap wood so it never ends up in a landfill, and recycling our total waste at a rate of approximately 72% over the last two years has prevented more than 790 tons of waste from ending up in landfills. Since we never stop looking for new ways to improve our sustainability, we empower our employees and stakeholders to make incremental changes that reduce our impact on the planet, improve our business and enhance our communities.

Upon execution of the underlying Contract, Contractor certifies or affirms the truthfulness and accuracy of any statement it has made, it makes, it may make, or causes to be made, pertaining to the underlying Contract or the FTA assisted project for which this Contract Work is being performed.

In addition to other penalties that may be applicable, Contractor further acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification, the Federal Government reserves the right to impose the penalties of the Program Fraud Civil Remedies Act of 1986 on Contractor to the extent the Federal Government deems appropriate.
